

Industrial Generators

TWE is the area's only authorized Generac Industrial distributor. Our team is factory-trained to help provide the best possible backup power solution for your large building or industrial application. From selecting the right product, to installation, to start-up, our complete team has the experience to ensure you have backup power you can count on.

Commercial Generators

Commercial generators are capable of providing full power protection for large homes and commercial applications from gas stations and convenience stores to restaurants, schools, assisted living centers and municipal buildings.

Residential Generators

Choose the residential generator four out of five families have already installed. Protect your home or business with the preferred 24/7 backup power protection of Generac.

Mobile Generators

Generac Mobile generator sets offer a wide range of power output choices. The advanced digital controller of the gen-set provides simple push-button operation and easy-read system information enhancing diagnostic capabilities.

Remote Generators

TWEGEN mobile generator systems provide backup power for rugged, remote applications. They are customizable, and ideal for cattle watering, remote homes or cabins, solar back-up power, natural gas/coal bed methane wells, as well as any other remote location that is tough to get power to.

UPS Solutions

We offer a versatile range of single-phase and three-phase UPS solutions and accessories that are hallmarked for their outstanding performance and reliability.

Generator Parts

We stock over 13,000 part numbers for ALL brands of generators, all ready for same-day shipping. "Parts with Smarts," is our free, technical consultation service to help ensure you get the right part, and also includes installation advice. With TWE, you have access to more than 40 years parts and 75 years generator service experience.

Generator Service

TWE's team of factory-trained service technicians keep your emergency power generator in top working condition and ready for any power outage, year after year. We offer a scheduled maintenance program, so you can be assured of optimal life & performance of your emergency back-up generator-system.
